Kitchen Remodel

Some people say that the way to a man's heart is through his stomach. I say the way to a woman's heart is through remodeling her kitchen. A few weeks back, I went to a home in Statesville to discuss a kitchen remodel project. Anxiously and excited, she described how the kitchen seems confined and isolated from the rest of the house. Since moving in, she always wanted to do something about this kitchen but it seemed like an overwhelming project.

Upon inspecting the kitchen situation, we discussed several options and agreed the project with the biggest impact was removing some overhead cabinets. We also agreed re-using some of those cabinets to create a custom wine rack would be a great way to create storage space and a display center. The changes transformed the isolated utility space into an inviting extension of the home. She exclaims, "Why didn't I do this sooner?!?"

If you have a kitchen that you've always wanted to reconfigure or transform, give us a call for a free ideas and quotes.

Grilled!

Lesson Learned

Recently, I received a phone call from a local business owner from the Mooresville Chamber of Commerce. He wanted to know if Universal does minor vinyl siding repairs. I replied, "Yes, we do."

I was surprised to find the cause of the damage was a gas grill. Preheating the grill as always, the phone rang so he went inside to answer it. He hung up and returned to the grill just in the nick of time.

It is important to keep your grill away from your home and deck railings. Universal can help you keep your home safe by installing a separate custom grilling area. Pictured below, an acid stain concrete area with a pergola and a paver patio with a fire pit added on to an existing concrete area. Call today for quote and design ideas.

Facts from NFPA

Between 2006-2010:

7,100 home fires by gas grills

1,200 home fires by charcoal grills

Giving Back

Realtors Care Day

On April 19, Universal is volunteering in partnership with local Realtors to give back to the community for the 3rd year. In a single day, the volunteers will paint the full interior of two homes located on the Barium Springs property. We don't have a bus to make a dramatic unveiling of the team's efforts but it will be an extreme makeover nonetheless.

MDA Lock-up

On May 16 at 9 AM, Scott Sharpe will be sentenced to going "Behind Bars for Good" and raising "Bail for MDA". Proceeds go to muscular dystrophy association clinics, support groups, and summer camps in the Statesville area. Look for more information in the next newsletter

Spring Special: Pressure Washing

Are you ready to start spring cleaning? Universal is ready to help! Cleaning the exterior of your home is a great way to wash away the winter weather exposure and welcome the warmer weather.

To celebrate spring 2013, we are offering to pressure wash a 1 story home, up to 2000 sq. ft., including cleaning gutters, for only

\$180

For larger homes, call us for a free quote.
